

## Tonopah Rob's Vegetable Farm CSA Registration Form

By signing below, I am entering into agreement with the understanding I am under contract with Tonopah Rob whereby I will receive a weekly vegetable box for the duration of my sign-up time of 30 weekly deliveries beginning November 2009 and concluding summer 2010. Pick-up times for my weekly share is on Saturday exclusively before noon at Tonopah Rob's Vegetable Farm. If you cannot pickup your share on Saturday you must arrange for someone else to pick it up. If your share is not collected on Saturday it is forfeited, no exceptions will be made.

**Payment options:** The full season cost of subscribing to the CSA is \$960 cash or check, or \$120 per month. For those subscribers requiring a monthly payment option, the first payment of \$120 cash or check is due when you sign up and subsequent monthly payments are due beginning November 10th, 2009 and are due no later than the 10<sup>th</sup> of each month thereafter— **Please note:** if payments are not received by the 10th following a short grace period you will forfeit the remainder of your share. If paying by credit card the monthly payment is \$125.

**Additionally:** Your weekly veggie box will be filled by "You" the subscriber. Arrive early for the best selection. You will be supplied a list of veggies to choose from and it will be up to you to choose, weigh, and pack your share. --- Harvest varies from week to week, while one week you may feel you received an abundance, the following week you may question the delivery amount, this is part of the nature of belonging to a CSA – your local farm does not always produce enough to meet every subscribers expectations. Fluctuations occur due to harvest capacity as determined by the workings of nature, the weather, and circumstances that the farmer cannot always control. NOTE: I will not run out of CSA member veggies, the allocation for CSA shares is separate from what is sold through the farm stand.

**Bugs, dirt, non-uniformity, blemishes:** Tonopah Rob's farm produces all-natural produce grown in the dirt where bugs, birds, pests, and other creatures live, as such you are likely to find the occasional insect, a fair share of dirt, and veggies that are not uniform and may have blemishes.

**Farm Season:** Your first share should begin on November 7, 2009 and the 30<sup>th</sup> share should be picked up on June 29, 2010. There will be no shares on the following days: 11/28/09, 12/26/09, 1/2/10, and one Saturday in February to be determined. If conditions warrant I may be forced to postpone a weekly share from time to time to allow the farm to grow enough produce to meet harvest demands.

**Refunds:** *Due to the planning and planting of crops, I can't stress enough that there cannot be any refunds given for any segment of this agreement.* Your options would be to give your share away, split share with friend or family member, or cancel further shipments – with the understanding there is a **NO refund policy**.

All shares are packed the same. Some deliveries could be the same as the prior week until new veggies begin to ripen. **Meaning:** Your veggie box may be identical from one week to the next as veggies mature – some people object to the redundancy, be certain you and your family can eat the same veggies for two, three, or more weeks successively. I cannot custom package, remove, or substitute items based upon personal likes and dislikes.
